

Fisher & Paykel
HEALTHCARE

Workplace Safety Manager

Fisher & Paykel Healthcare is the world leader in the design, manufacture and marketing of heated humidification devices, exporting to over 110 countries globally.

We are looking for the right individual who can manage all aspects of Workplace Safety processes to continue to create a safe working environment within this high volume and growing business.

This is a hands-on and diverse role where you will have a positive impact on the company's safety culture. A key focus will be the continuous improvement of our Accredited Workplace Safety programme and practical Workplace Safety systems and processes. You will also be required to provide technical support and guidance across the business and actively promote, influence, coach and motivate our teams to continue to achieve excellence in workplace practices.

Coming from an engineering background with Safety experience gained from within the manufacturing sector, you take pleasure in being visible on the shop floor and getting your hands dirty. You have excellent communication and relationship development abilities, along with a proactive approach and focus on outcomes.

If this sounds like you and you want to be part of a company that truly makes a difference then please apply via our website www.fphcare.com/careers or send a current cv to:

Amanda Gemmell, HR Manager Group Services
Fisher & Paykel Healthcare, P O Box 14348,
