KNOW BOUNDARIES

If it's world-class challenges and complexity you crave, let us show you the way. As a leader in the global dairy industry, the scope of our business and resulting opportunities can see you – like us – reach world-class status. What can be achieved here is without compare, so join us, and know no boundaries.

HEALTH AND SAFETY ADVISOR – EDENDALE

Play a pivotal role in driving Health and Safety at our Edendale Hub. A role with plenty of variety you will influence, coach and support staff and managers as you implement programs and initiatives across our manufacturing operations. Strive for continuous improvement in health and safety for the betterment of the business.

Ideally you have a relevant tertiary qualification and experience in a health and safety role within a manufacturing environment. You demonstrate a sound knowledge of risk management and have experience in developing Health and Safety policies, leading programs and initiatives, hazard identification and preparing and analysing reports.

We will provide true stretch and opportunity for individuals committed to delivering first class innovative solutions.

Applications close 24 May 2009.
