

A Responsible Care® Company

Get the quality your career and lifestyle deserves.

If you want the ultimate mix of career opportunity, lifestyle enjoyment and all that comes with joining a global leader, Methanex provides all the ingredients. We're a world leader in the production and supply of methanol, and the only company in New Zealand producing a product that's a vital part of making modern life possible. While we're already at the forefront of our market - as the demand of methanol and its applications continues to grow - our success is set to continue. And with it comes outstanding opportunities for people to develop and grow with us.

But a rewarding career in an ever-growing industry is only part of what Methanex New Zealand makes possible. We're situated just 20 minutes drive from New Plymouth - the world's most liveable small city - so the lifestyle advantages that come with joining us are simply second to none. Whether you're after a safe, secure setting in which to raise your family, stunning scenery and a huge selection of outdoor pursuits, or a stress-free life without the typical city chaos and costs, New Plymouth offers it all.

.....

We've a range of opportunities available, so to learn more about our company and what a career here means for you, visit our website, www.methanexfutures.co.nz

Applications close at 4pm Wednesday 21 September, 2011.
