

# HEALTH & SAFETY ADVISOR

## PERMANENT, FULL-TIME POSITION

If you share our passion for excellence in Health & Safety practice, we would love to hear from you!

With campuses in both Dunedin and Cromwell and other sites across Otago we offer a diverse range of programmes which will see you working with both our staff and students in areas such as artists studios, chef's kitchens, health and science laboratories, and even in our vineyard! In addition, we currently have major construction projects that will continue in 2009.

Otago Polytechnic has tertiary level accreditation under the ACC WSMP Programme. We model best practice H&S systems. Your challenge will be to maintain consistency in these practices and to add further value to our organisation. This role provides advice, leadership and co-ordination of Health & Safety at a senior level.

The work includes co-ordinating our H&S Committee, overseeing management of hazards, and accident and incident management and investigation. It also oversees our HSNO requirements, ergonomic assessments, and health monitoring and rehabilitation. There is also scope for future wellness programmes.

You will hold a relevant H&S qualification, and preferably be a qualified health professional. You will have experience with the ACC WSMP programme, a proven track record and the ability to lead in Health & Safety.

*For information contact Matt Carter, General Manager Human Resources, on 0800 762 786 or [MattC@tekotago.ac.nz](mailto:MattC@tekotago.ac.nz).*
