

METHANEX

A Responsible Care® Company

**Safety starts with S
but begins with YOU!**

SAFETY & HEALTH TEAM LEADER

Based in New Plymouth with the Mountain and Ocean on your doorstep, this newly established role will play a pivotal role in driving Methanex's Responsible Care ethic.

As an experienced Safety Engineer you will demonstrate a passion for safety in the workplace and will welcome the opportunity to work for a well respected global company whose commitment to safety is second to none.

You will have tertiary qualifications and specialist expertise to provide supervisory support and direction to the Health & Safety team. You will have extensive knowledge in the areas of Human Factors, Loss Prevention, Risk Management and Process Safety Management, preferably gained in a petrochemical or processing plant environment. You will also have an expert understanding of HASE legislation.

Methanex can offer you a highly competitive remuneration package including generous benefits such as medical subsidy, 14.9% superannuation, life & disability insurance, company share plan and car allowance. Flexible work hours are also offered.

If you are a strong influencing OHS practitioner with proven leadership experience and can "walk the talk" when it comes to safety, you will thrive in this dynamic role.

To apply please go to www.methanex.com for a Position Description and Application Form. Only applications received on the official Methanex Application Form will be considered. For queries please call Tracey Berrington-Smith, HR Advisor on (06) 754 9719 or email jobsnp@methanex.com Applications must be received by **5pm, 18 February 2010**
